Instructions

- Make a header section with following code and replace with your details

```
<!-- Use this template at the begin of the html body-->
<header>
  <h1>Using Tables</h1>
  <h3>PeoCode - Week 1</h3>
  <p>
    <!--
      Replace with your own details.
      Ex: <strong>Chamath Jayawardana</strong>...
    -->
    <strong>&lt; Your_Name &gt;</strong> -
    <em>&lt; Your_Index_Number &gt;</em>
  </p>
  <hr />
  <br /><br />
</header>
```

- Create a table with a 2px border and a 'solid black' color. Each cell should have 2px cell space and 12px cell padding size.
- Add a table caption as shown in the picture.
- There are two rows for table headers, 5 rows for data entry, and one footer. The table header, body, and footer should be **separated** from each other.
- Add a footer with the correct format
